

Sinatra once said “When I sing. I believe. I’m honest”. Ol’ Blue Eyes lived a colorful life filled with excitement, and there was truly never a dull moment. A remarkable entertainer. Drawing our inspiration from the man himself and the genre/music that he had revolutionised throughout the world. We define the cocktail experience with a touch of elegance and a sense of jazz wonder while preserving the jazz influences that Sinatra has brought into the music industry. At Frank’s, we take you to an ever-evolving journey of sound and music that will awaken your sense of taste.

Sinatra

*" There may be
trouble ahead but
while there's music
and moonlight and
love and romance
let's face the music
and dance."*

*"Alcohol may be
man's worst enemy,
but the bible says
love your enemy."*

Sinatra is all about the music, and at Frank's, music will play a primary role, including our beverage program. Frank's is excited to present to you the "sonic ageing project" or what we like to call the "Signature Sinatra Mix."

We've used a new age ageing method that's known to speed up the alcohol ageing process and enhance the flavour of barreled liquor by the use of music! The sound waves emitted from the songs act to increase the interaction of the liquor with the barrel wall, much more significant than the normal ageing process currently used.

At Frank's, we use a headphone placed on either side of the barrel playing classic Sinatra songs 4 hours a day, every day over a total of 14 days. Specifically, a playlist of songs between a 110 and 200 BPM is used for better effect. Our ultimate goal is to share this new age method with visiting bartenders to create their signature batch that will be applied for different cocktails or as a direct drink at Frank's KL.
